### EXPERIENCE

*WordPress Website Developer for  
KendangSilat.com: Mar-2017/July 2017*

Created a website for Kendang Silat  
Studios out of Charleston, SC. This was a  
remote access website built using the  
WordPress platform from a theme created  
from scratch using PHP, CSS3, HTML5, GSAP,  
and JavaScript on a bootstrap grid  
framework.

*Lab Technician for Brunswick Community  
College: Mar-2015/May2016*

Installed and maintained an Astronaut  
Vista Electronic Health Records application  
for the HIT program at Brunswick Community  
College.

Installed and maintained a Linux FOG server to deploy a Windows 7 operating system to the computer lab.

Ensured computer and related equipment in the school is working properly; arrange for needed maintenance. Troubleshoot problems with computers and other equipment. Perform installations of computer software and hardware.

Assist users with applications development. Perform disk backup and software deployment as required.

*Software Developer for Nature's Corner Health Food Store: Feb-2014/Mar-2016*

Developed an Inventory Application with VB.net for Nature's Corner Health Food Store to keep track of their inventory.
